Why do you want to be part of the Edge of Europe ride to Nordkapp?

This is not a tough journey, possible for all safe riders. You will be riding 200 - 280 mile days across Europe, occasionally 350 miles in Finland which are transit days to get to the good routes, but all on good and mostly back roads. In the unlikely situation we need to do some low technical easy off-road riding, do you feel capable of this?

.....
.....
.....

Most of the riding is during the day but in the unforeseen event of having to ride just as it gets dark, will this be a problem for you?

.....
.....
.....

Have you ever travelled abroad alone and where?

What motorcycle riding experience do you have?

Just so you know, when we cross into the very northern edge of Europe emergency services may take longer to get to accident location. In the unlikely situation of there being an RTA, there may be delays in getting good quality support to get you to a hospital should this be required. You may need to be transported in our support vehicle. We will however take any accidented rider to the best private hospital available as advised by your insurer. Please ensure you have full medical and repatriation insurance. Are you aware of this? What are your thoughts?

.....
.....
.....

There are the following additional costs, please tick the box so we know you are aware of them.

Fuel costs

These are increasing but at their most expensive they have been as low as UK motorway prices.

3rd Party Motoring Insurance

Please make sure road legal riding insurance for Europe includes all Scandinavian countries with particular reference to Norway.

(please tick)

In the case of an accident, do you have any medical history that would prevent treatment – allergies to penicillin, mosquito repellent etc?

If you have any questions please list them below and indicate a suitable time for me to give you a ring to try and answer them.
